Built for the PRO, by the PRO™

SENSEI®RX Series featuring Smart-Circ™ Intelligent Recirculation™, makes it easier than ever for PROs to sell, install, and service the best-performing condensing tankless water heater Rinnai has ever made. Now you can provide the latest in lifestyle comfort, smart-design, and built-in technology by installing the premium, unlimited hot water experience that only **SENSEI®RX Series** can offer.

NEW

SMART SENSE™

Rinnai's proprietary Adaptive Gas Valve Technology adjusts to either Natural Gas or Liquid Propane Gas for optimal combustion - **no conversion kit required.**

SENSEI®RX Series Offers Natural Gas, Propane Gas, Indoor and Outdoor Capability all in One Model

Stock your warehouse and vehicle with the one tankless model that really does it all!

NEW

VERSA-VENT™

Outdoor Vent Cap easily adapts to any SENSEI®RX Series model for outdoor installations providing the ultimate in SKU flexibility (sold separately).

NEW

Rinnai
INDUSTRY
FIRST

SMART CONNECT™

Allows you to connect your smart phone or tablet to the SENSEI®RX Series via Bluetooth®. Use the Rinnai Central™ App for quick, simplified tankless water heater set-up and registration, significantly reducing your install time.

NEW

QUICK FLUSH™

Provides a more efficient flushing procedure to make periodic preventive maintenance a simple task to perform.

Superior Performance Requires Superior Components™

Rinnai designs and manufactures most of the key components that go into the **SENSEI®RX Series**, allowing for consistent control of quality, backed by the industry's best warranty. That's why more consumers and PROs choose Rinnai over any tankless brand.

SENSEI®RX

SERIES

Built for the PRO, by the PRO™

Model shown: RXP199IN

NEW Improved Turbo Fan™

Enables longer vent runs and flexible vent options

Industry leading

75 feet with 2" / 4"

concentric and 2" PVC/CPVC/PP.

Up to 150 feet with 3" / 5"

concentric and 3" PVC/CPVC/PP.

NEW Enhanced Primary and Secondary Heat Exchangers

More efficient heat transfer and improved robust design with minimal joints.

The tube design is 444 Stainless Steel that provides added durability and heat resistance.

Sets the standard for high efficiency tankless

(0.98 or 0.97 UEF on all models).

NEW 4-Speed DC Recirculation Pump

Quieter operation in a compact size with higher head pressure for improved performance.

NEW Retro-fit Internal Pump Kit

Adds Rinnai's advanced recirculation capability to non-pump models.

NEW Weighs 58 lbs.

10 lbs. lighter than previous models.

Lifestyle Comfort Options with SENSEI® RXP - Recirculation models

4a Recirculation Schedule Based on Usage Patterns

Smart-Circ™ Extraordinary Convenience Out of the Box

Smart-Circ™
Intelligent Recirculation™

Smart-Circ™ starts learning “users” hot water patterns from the first day and automatically schedules recirculation to provide hot water when they need it. Leverages last 7 days of hot water usage to continuously update hot water recirculation schedule. Users enjoy continuous hot water during regular demand periods, while saving energy and money.

DAY 1 - Learning Hot Water Usage Every Day

You're all set! Hot water will be ready for you based on the previous days' schedule. As hot water events are added throughout the week, scheduled recirculation adjusts accordingly.

DAYS 2 thru 7 - Hot Water Ready

4b Recirculation Schedule Based on User Control

Hot Water Recirculation Scheduling at Your Fingertips

After downloading the **Rinnai Central™** app and connecting to the **RWM200 Wireless Module** (sold separately), Homeowners can experience the ultimate in accessibility, convenience, and control:

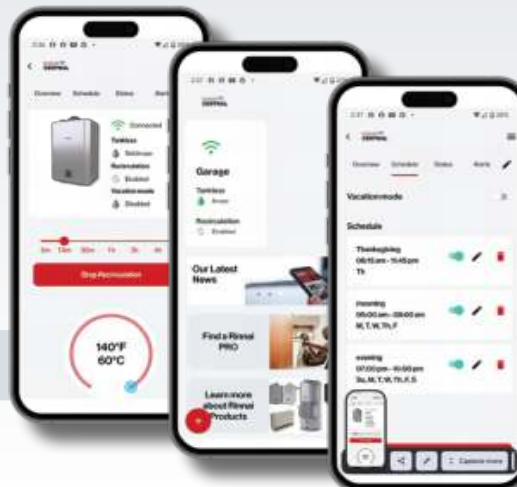

- Activate recirculation schedule (pump-enabled models only)
- Adjust Water temperature
- Check real-time water heater status
- Receive maintenance alerts
- Activate vacation mode to save energy when away for extended periods

RWM200 Wireless Module

Smart Home Automation Smart Home Routines for Convenient Control

- Voice Activation with **amazon alexa**
- Adjust Water Temperature
- Turn on/off Recirculation
- Schedule Recirculation
- **Push Button** available for On-Demand Recirculation*

* Required by Title 24, California Energy Commission. Push Button can connect to the RXP tankless water heater directly or via the RWM200 module.

Turn Any Plumbing System into a Recirc System

Regardless of whether an existing plumbing system has a dedicated return line, faster hot water can be enjoyed using a Thermal Bypass Valve accessory when installing tankless models featuring a built-in pump with recirculation technology.

Tankless vs Tank

Rinnai®

High Hot Water Usage

Every year American home owners spend \$400 to \$600, on average, to heat water for bathing, washing & cleaning.*

Average Household Consumes 64 Gallons of Hot Water Per Day
(23,000 gallons per year)

TANKLESS WATER HEATERS
Continuous hot water heater system

VS
Over 20 Years

TANK WATER HEATERS
Traditional hot water storage tank system

15 Years on the Heat Exchanger
5 Years on Parts
5 Years on Labor*
*Requires product to be registered within 90 days of installation or Labor Warranty defaults to 1-year.

EFFICIENCY •

Tankless water heaters are **much more energy efficient**; no hot water is stored.
24-34% more efficient than tanks.*

Tank water heaters are **susceptible to standby heat loss** and a continuously heated tank means water is heated all day long, 24/7, for **less efficiency.**

• COST •

Tankless water heaters have **lower operational costs** and **last much longer than tank water heaters**, which can offset installation costs.

Tank water heaters have a lower purchase price but are **more expensive to operate** since they must constantly keep water heated 24/7.

• LIFESPAN •

With periodic maintenance, tankless water heaters can **last for 20+ years.***

Traditional tank water heaters have a **lifespan of 10-15 years.***

• SIZE • SPACE •

Tankless water heaters are about the **size of a small suitcase** and are wall mounted for significant space savings.

Traditional tank water heaters **require much more area** for installation than tankless units potentially reducing net living or storage space.

• BOTTOM LINE •

- Up to 34% more energy efficient*
- Compact space saving design
- Longer lifespan
- Unlimited hot water capacity

- Heats water even when not being used
- Takes up valuable space
- Shorter lifespan
- 40-60 gallon capacity

* As based on the average operating costs, efficiency and lifespans of tankless vs. storage water heaters per the Department of Energy (energy.gov).

Be the PRO in the know

There are a lot of tankless myths out there being spread by people unfamiliar with the technology. Luckily, plenty of PROs know about these misconceptions and are here to tell the Tankless Truths.

Accessories for SENSEI® RX

Numerous optional accessories are available for purchase for your Rinnai Tankless Water Heater. Listed below are some commonly purchased accessories. For a complete list of accessories, visit www.rinnai.us For questions, or to purchase an accessory, contact your local Rinnai dealer/distributor or **Rinnai Customer Care at 1-800-621-9419.**

Product/Part #	Product Description	
Isolation Valve Kit MIVK-T-LW	Isolation valves provide the ability to isolate the water heater from the structure's plumbing system and allow quick and easy access to flush the heat exchanger. Rinnai strongly recommends use of these valves for service and maintenance.	
Outdoor Vent Cap RXOVC	Allows the water heater to be installed outdoors.	
BLE Recirculation Push Button RPB200	Mounted in a convenient location, i.e. near a kitchen or bathroom sink, the BLE push buttons works with the SENSEI®RXP tankless water heater or Wireless Module to activate the recirculation system by pushing the button.	
Dedicated Return & Isolation Valve Kit 107000639	Valve kit including tee, drain valve, pressure relief valve, check valve & isolation valves (cold & hot) to simplify set-up of a dedicated recirculation line.	
Internal Add-on Recirculation Conversion Kit RX2RXPCK	Allows a non-pump RX model to be converted to a RXP internal pump model.	
Condensate Neutralizer 804000074	Neutralizes the condensate generated by the water heater.	
Wireless Module RWM200	Controls On-Demand recirculation, remotely adjust temperatures, and communicates with the service provider portal. The module and MC-195T-US controller are not compatible accessories and must not be installed together.	
Additional Controller MC-601	Additional controllers are available for user convenience.	
Additional Controller MC-195T-US	Additional controllers are available for user convenience.	

Accessories for SENSEI®RX

Product/Part #	Product Description	
ScaleCutter 103000038	Prevents the formation of scale buildup in the water heater extending product life while improving performance.	
ScaleCutter Refill Cartridge 103000039	Refill cartridge for the ScaleCutter filter assembly.	
Drain Down Kit 104000059	Provides freeze protection by immediately draining the water heater upon loss of power.	
Leak Detection Kit RXLeakKit	Pipe cover drain pan and float switch for use with the Pipe Cover (Part #: PCD11-SHS)	
Room Air Screen 108000104 for 2" 108000105 for 3"	Recommended room air screen for use in room air applications only.	
EZConnect™ Cable REU-EZC-3	Electronically connects two water heaters and allows them to function as one hot water source.	
OPU Switch REU-OPU3	Normally Closed (NC) switch that connects to the tankless water heater PC Board. When used with a hydronic air handler, the switch gives priority to domestic hot water during high demand.	
RTBRACKA	Tankless Floor Standing Rack, standard height	
RTBRACKS	Tankless Floor Standing Rack, low profile	
RTBRACKEXT	Rack Extension Kit, add-on	
Recess Box RGBCTWHRX	Allows a water heater to be recessed into a wall. A vent adapter is provided with the recess box.	
Pipe Cover PCD11-SHS	Encloses the piping below the water heater for aesthetic purposes.	

Accessories for SENSEI® RX

Product/Part #	Product Description					
Ubbink 2" Polypropylene (PP) Flexible Venting • Approved for condensing, vertical non-direct vent (room air) applications • Maximum equivalent length: 50 ft (15 m)	2" (60) Condensing Flex Termination Kit (Fits 4 and 6 in B-Vent) 184470NPP		2" (60) Flex Roll X 41.5' (12.5 m) 222721NPP		2" (60) Flex Connector 222720NPP	
Single Unit Standoff Brackets 109001376	The Single Unit Standoff Brackets create 1.5 inches (38mm) of clearance between the water heater and the wall allowing pipe runs directly behind the tankless unit. Top and bottom bracket included.					
Gas Conversion Kit 104000330	Kit contains gas conversion manual and conversion rating plate label (adheres to water heater to display new gas type)-for post install conversions.				<div style="border: 1px solid black; padding: 5px;"> <p style="font-size: 8px; margin: 0;">Water Heater Certified for use in the United States and Canada</p> <p style="font-size: 8px; margin: 0;">Models: RX100</p> <p style="font-size: 8px; margin: 0;">Conversion Kit # 104000333 for NATURAL Gas</p> <p style="font-size: 8px; margin: 0;">Gas Supply Pressure: Min. 3.5" W.C. Proudly assembling Tankless Water Heaters at our state-of-the-art factory located in Griffin, Georgia, USA

Rinnai established its US operations in 1974 and introduced Tankless Water Heating to the North American Market in 1999.

In 2018 Rinnai assembled its first tankless water heater in the United States in Griffin, Georgia. Our state-of-the-art facility was completed in 2021 with assembly of the new RE•SERIES™ Non-Condensing Tankless Water Heaters beginning in 2022.

Rinnai continues to make significant investments in expanding its operations and product portfolio, focusing on its brand promise of **Creating a healthier way of living®**

Rinnai America in Griffin, Georgia, USA

Over 100 Years of Smart Comfort

Through many years of innovation, including decades of commercial water heating experience, Rinnai has enhanced the way businesses operate, while creating a healthier way of living for their customers.

With headquarters in Japan and a network of 20 subsidiaries and 86 sales offices in 13 countries, this commitment has made us the number one selling brand of tankless water heater systems.

Dedicated to a smarter kind of comfort, our value-added products continue to stay in step with the demands of a changing world.

Every. Detail. Matters.™

You don't become a market leader without thinking through every single detail. Then overthinking it. Then rethinking it. Every small detail matters. A lot. From flexible venting to customizable solutions and maximum ROI, we've thought through all the possible barriers and potential problems before they exist. Simply put, we're not just in the business of tankless water heaters. We're in the business of solving problems. That means we won't relax. Ever. We just can't. We'll keep rethinking every single tiny detail, innovating, and improving our products, services, and programs.

Learn more about Rinnai high-performance Tankless Water Heaters, Hybrid Water Heating Systems, Boilers, Vent-Free Fan Convectors, EnergySaver® Direct Vent Wall Heaters, Hydronic Air Handlers, and Electric Heat Pump Water Heaters.
